The Bella Moss Foundation announces a CPD Webinar

The Bella Moss Foundation is pleased to present a CPD webinar sponsored by Medichem International and in conjunction with The Webinar Vet:

Thursday 8th December 2011 9pm GMT

Recent advances in the treatment and control and methicillin-resistant staphylococci

Presented by J Scott Weese DVM DVSc DipACVIM

The Bella Moss Foundation is a not-for-profit charity that relies solely on donations. Our uniqueness is in our work to bridge the gap between human and animal medicine, and we work to improve the knowledge of antibiotic-resistant infections in companion animals and livestock.

All funds received from sales of this webinar will go directly to the Bella Moss Foundation to help us with educational projects for vets and nurses.

Bella Moss foundation would like to express gratitude to Dr Scott Weese and WebinarVet for helping us make this possible.
