

To My Beloved Bella

“To my beautiful Bella who left me too soon, who fought so hard to live, who did not know how to die, and who gave me the happiest moments in my life, and talked even more than I do!”

Jill Moss

Bella, you were a unique, remarkable soul; your sense of fun and loving brought such pleasure to so many people

In life you were such a big character and in death even larger, a legend you have become in your own right

You died because of veterinary bad practice and no other reason, though many would have people believe otherwise

We had so many more memories to collect and so much fun to have, MEDIVET took that time from us

Your kind, gentle soul lives on in all of us that loved you so much and your spirit is alive in the world as a testimony for change

Life without you is desolate

My house without you is empty, lifeless

Your casket sits in my living room but you should not yet be there, it was not your time

My heart aches for you, I look for you everywhere

You were my companion, buddy and confidante: what happened to you shouldn't have happened to a dog

God, please take care of my beautiful Bella Louise and keep her safe until the day we are once again together
