

A thank you to Jill Moss

*Jill, I can never repay you for the help you have given me
So this is a small token of thanks for thee,
An amazing person you are
With strength incomparable by far,
These words I have written
So please sit back and listen.*

*Xena is everything, my baby and my life
To watch her suffer and lie in pain hurt like a knife,
We thought the end was near
With no help, desperation and fear,
My heart had sunk and been ripped out
With nowhere to turn I would cry and shout,
Then I found you with light and hope
From the stormy black sky like
A ray of sunshine you helped me cope,*

*Then new medicine to make her better you helped me to find,
So without you I think you can see my hands would still be bind,
And so the story ends with a smile
Because of you Xena will be around for a long while.
These angels' wings remind of you
As you gave me hope when emptiness was all I knew...*

Love **Vikkie & Xena**
